Major Burgh Interchange Makeover Under Way

By Brenda Huggins
12/11/2011 10:11 AM

A \$27 million road construction project currently under way in Pittsburgh is the contract, which was awarded to Walsh Construction Company of Garysburg, Pa., under the name of the Marshall Avenue Interchange on the North Side.

According to the Pennsylvania Department of Transportation (PennDOT), approximately 13,000 vehicles travel on this section on a typical weekday.

The current project is the replacement of the interchange of the Route 19/Route 19 Interchange. Work includes the replacement of concrete deck, substructure, steel repairs, expansion joints, bearing replacements, steel system cleaning and painting structural steel, approach slab, sidewalks, highway lighting and other improvements.

The project is set to start in early 2012. The bridge will be gradually widened to ten lanes by early 2012 and widening through fall.

Shale Energy Seen as Potential Game-Changer

Equipment distributors in Ohio and Pennsylvania overwhelmingly believe that the shale energy sector has the potential to be a significant game-changer. Deere & Co. and Case IH, two of the top 10 equipment manufacturers in the U.S., have both announced plans to invest in shale energy equipment.

Highway Bill Stalls Again in Senate

By Tom Ivers
12/11/2011 10:11 AM

The government's push to spend federal highway funds is stalled in the Senate. The bill, which would provide \$54 billion for highway construction and \$10 billion for research and development, is expected to be introduced in the House in the next few days.
